

# SAFETY DATA SHEET

## 1. Identification

Product identifier: SODIUM NITROFERRICYANIDE

# Other means of identification **Product No.:** 3792

## Recommended use and restriction on use

Recommended use: Not available. Restrictions on use: Not known.

## Manufacturer/Importer/Supplier/Distributor information

## Manufacturer

Avantor Performance Materials, Inc.
3477 Corporate Parkway, Suite 200
Center Valley, PA 18034
Customer Service: 855-282-6867
Environmental Health & Safety info@avantormaterials.com

## Emergency telephone number:

24 Hour Emergency: 908-859-2151

Chemtrec: 800-424-9300

## 2. Hazard(s) identification

## Hazard classification

#### Health hazards

Acute toxicity (Oral)

Category 3

## Label elements

Hazard symbol:

Signal word:	Danger
Hazard statement:	Toxic if swallowed.
Precautionary statemer	ıt
Prevention:	Wash thoroughly after handling. Do not eat, drink or smoke when using this product.
Response:	IF SWALLOWED: Immediately call a POISON CENTER/doctor. Rinse mouth. Specific treatment (see this label).
Storage:	Store locked up.

**Disposal:** 

Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

Other hazards which do not None. result in GHS classification:

## 3. Composition/information on ingredients

## Mixtures

Chemical identity	Common name and synonyms	CAS number	Content in percent (%)*
SODIUM NITROFERRICYANIDE (HYDRATED FORM)		13755-38-9	90 - 100%
* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.			

4. First-aid measures	
General information:	Get medical advice/attention if you feel unwell. Show this safety data sheet to the doctor in attendance. If cyanide poisoning occurs, immediately start first aid, then get medical attention. A cyanide antidote kit should be available in any cyanide work area.
Ingestion:	Administer antidote kit and oxygen per pre-planned instructions if symptoms occur. If patient is conscious, immediately give activated charcoal slurry. Never give liquid to an unconscious person. Do NOT induce vomiting.
Inhalation:	Move into fresh air and keep at rest. Administer antidote kit and oxygen per pre-planned instructions if symptoms occur. Do not give mouth-to-mouth resuscitation.
Skin contact:	Immediately flush with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Call a physician or poison control center immediately. Wash contaminated clothing before reuse.
Eye contact:	Immediately flush with plenty of water for at least 15 minutes. If easy to do, remove contact lenses. Get medical attention immediately.
Most important symptoms/effe	ects, acute and delayed
Symptoms:	Fatal if swallowed.
ndication of immediate medica	al attention and special treatment needed
Treatment:	Treat symptomatically. Symptoms may be delayed.
5. Fire-fighting measures	
General fire hazards:	In case of fire and/or explosion do not breathe fumes. Fire may produce irritating, corrosive and/or toxic gases.
Suitable (and unsuitable) extir	nguishing media
Suitable extinguishing media:	Use fire-extinguishing media appropriate for surrounding materials.
	21

Unsuitable extinguishing media:	None known.
Specific hazards arising from the chemical:	Contact with metals may evolve flammable hydrogen gas. Fire may produce irritating, corrosive and/or toxic gases.
Special protective equipment and	d precautions for firefighters
Special fire fighting procedures:	Move containers from fire area if you can do so without risk. Use water spray to keep fire-exposed containers cool. Cool containers exposed to flames with water until well after the fire is out.
Special protective equipment for fire-fighters:	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.
6. Accidental release measures	5
Personal precautions, protective equipment and emergency procedures:	Keep unauthorized personnel away. Use personal protective equipment. See Section 8 of the MSDS for Personal Protective Equipment. Ventilate closed spaces before entering them. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.
Methods and material for containment and cleaning up:	Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Clean surface thoroughly to remove residual contamination. Dike far ahead of larger spill for later recovery and disposal.
Notification Procedures:	Dike for later disposal. Prevent entry into waterways, sewer, basements or confined areas. Stop the flow of material, if this is without risk. Inform authorities if large amounts are involved.
Environmental precautions:	Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling:	Observe good industrial hygiene practices. Do not breathe dust. Remove contaminated clothing and wash the skin thoroughly with soap and water after work. When using do not eat, drink or smoke. Special training should be given to workers using cyanide. A cyanide antidote kit should be available in any cyanide work area. The antidotes should be checked annually to ensure they are still within their shelf-lives. Avoid contact with eyes. Avoid contact with skin. Use only with adequate ventilation. See Section 8 of the MSDS for Personal Protective Equipment.
Conditions for safe storage, including any incompatibilities:	Keep away from food, drink and animal feeding stuffs. Keep container tightly closed. Store in cool, dry place. Store in a well-ventilated place.

## 8. Exposure controls/personal protection

## **Control parameters**

Occupational exposure limits	
	None of the components have assigned exposure limits.
Appropriate engineering	No data available.

Appropriate engineering	
controls	

## Individual protection measures, such as personal protective equipment

General information:	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. An eye wash and safety shower must be available in the immediate work area.
Eye/face protection:	Wear safety glasses with side shields (or goggles). Use tight fitting goggles if dust is generated.
Skin protection Hand protection:	Chemical resistant gloves
Other:	Wear suitable protective clothing.
Respiratory protection:	In case of inadequate ventilation use suitable respirator.
Hygiene measures:	Provide eyewash station and safety shower. Observe good industrial hygiene practices. Wash hands before breaks and immediately after handling the product. Do not eat, drink or smoke when using the product. Wash contaminated clothing before reuse.

## 9. Physical and chemical properties

## Appearance

Physical state:	Solid
Form:	Crystals or powder.
Color:	Red
Odor:	Odorless
Odor threshold:	No data available.
pH:	No data available.
Melting point/freezing point:	No data available.
Initial boiling point and boiling range:	No data available.
Flash Point:	Not applicable
Evaporation rate:	No data available.
Flammability (solid, gas):	No data available.
Upper/lower limit on flammability or explosi-	ve limits
Flammability limit - upper (%):	No data available.
Flammability limit - lower (%):	No data available.
Explosive limit - upper (%):	No data available.
Explosive limit - lower (%):	No data available.
Vapor pressure:	No data available.
Vapor density:	No data available.
Relative density:	1.72 (20 °C)
Solubility(ies)	
Solubility in water:	430 g/l (16 °C)
Solubility (other):	No data available.
Partition coefficient (n-octanol/water):	No data available.
Auto-ignition temperature:	No data available.
Decomposition temperature:	No data available.
Viscosity:	No data available.

## 10. Stability and reactivity

Reactivity:	No dangerous reaction known under conditions of normal use.
Chemical stability:	Material is stable under normal conditions.
Possibility of hazardous reactions:	Hazardous polymerization does not occur.
Conditions to avoid:	Heat. Contact with incompatible materials.
Incompatible materials:	Strong acids. Strong oxidizing agents. Incompatible materials. Strong oxidizing agents.
Hazardous decomposition products:	Thermal decomposition may produce oxides of carbon and nitrogen. Hydrogen cyanide. Contact with acids liberates toxic gas.

## 11. Toxicological information

Information on likely routes of ex Ingestion:	<b>posure</b> Toxic if swallowed.
Inhalation:	May be harmful if inhaled.
Skin contact:	May cause irritation.
Eye contact:	Causes eye irritation.
Information on toxicological effect	sts
Acute toxicity (list all possible	routes of exposure)
Oral Product:	LD 50 (Rat): 99 mg/kg
Dermal Product:	No data available.
Inhalation Product:	No data available.
Repeated dose toxicity Product:	No data available.
Skin corrosion/irritation Product:	May cause skin irritation.
Serious eye damage/eye irritation Product:	<b>n</b> Causes eye irritation.
Respiratory or skin sensitization Product:	Not a skin sensitizer.
Carcinogenicity Product:	This substance has no evidence of carcinogenic properties.
IARC Monographs on the E No carcinogenic components	valuation of Carcinogenic Risks to Humans: identified

US. National Toxicology Program (NTP) Report on Carcinogens: No carcinogenic components identified

## US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050):

No carcinogenic components identified

## Germ cell mutagenicity

In vitro Product:	No mutagenic components identified	
In vivo Product:	No mutagenic components identified	
Reproductive toxicity Product:	No components toxic to reproduction	
Specific target organ toxicity Product:	- single exposure None known.	
Specific target organ toxicity - repeated exposure Product: None known.		
Aspiration hazard Product:	Not classified	
Other effects:	None known.	

## 12. Ecological information

## **Ecotoxicity:**

Acute hazards to the aquatic environment:			
Fish Product:	No data available.		
Aquatic invertebrates Product:	No data available.		
Chronic hazards to the aquatic	environment:		
Fish Product:	No data available.		
Aquatic invertebrates Product:	No data available.		
Toxicity to Aquatic Plants Product:	No data available.		
Persistence and degradability			
Biodegradation Product:	There are no data on the degradability of this product.		
BOD/COD ratio Product:	No data available.		
Bioaccumulative potential Bioconcentration factor (BCF Product:	) No data available on bioaccumulation.		
Partition coefficient n-octano Product:	I / water (log Kow) No data available.		

Mobility in soil:	The product is water soluble and may spread in water systems.			
Other adverse effects:	The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.			
13. Disposal considerations				
Disposal instructions:	Discharge, treatment, or disposal may be subject to national, state, or local laws. Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.			
Contaminated packaging:	Since emptied containers retain product residue, follow label warnings even after container is emptied.			
14. Transport information				
DOT

## 15. Regulatory information

## **US** federal regulations

Packing group:

## TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050) None present or none present in regulated quantities.

Ш

CERCLA Hazardous Substance List (40 CFR 302.4):

None present or none present in regulated quantities.

## Superfund amendments and reauthorization act of 1986 (SARA)

#### Hazard categories

X Acute (Immediate) X Chronic (Delayed) Fire Reactive Pressure Generating	Х	Acute (Immediate)	Х	Chronic (Delayed)		Fire		Reactive		Pressure Generating
---	---	-------------------	---	-------------------	--	------	--	----------	--	---------------------

## SARA 302 Extremely hazardous substance

None present or none present in regulated quantities.

#### SARA 304 Emergency release notification

None present or none present in regulated quantities.

## SARA 311/312 Hazardous chemical

Chemical identity	Threshold Planning Quantity
SODIUM	500 lbs
NITROFERRICYANIDE	
(HYDRATED FORM)	

## SARA 313 (TRI reporting)

None present or none present in regulated quantities.

# Clean Water Act Section 311 Hazardous Substances (40 CFR 117.3)

None present or none present in regulated quantities.

## Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130):

None present or none present in regulated quantities.

## **US state regulations**

## US. California Proposition 65

No ingredient regulated by CA Prop 65 present.

## US. New Jersey Worker and Community Right-to-Know Act No ingredient regulated by NJ Right-to-Know Law present.

## **US. Massachusetts RTK - Substance List**

No ingredient regulated by MA Right-to-Know Law present.

## US. Pennsylvania RTK - Hazardous Substances

No ingredient regulated by PA Right-to-Know Law present.

## **US. Rhode Island RTK**

No ingredient regulated by RI Right-to-Know Law present.

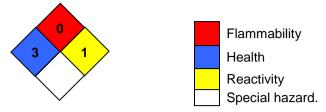

## **Inventory Status:**

Canada DSL Inventory List:	On or in compliance with the inventory
EU EINECS List:	On or in compliance with the inventory
Korea Existing Chemicals Inv. (KECI):	On or in compliance with the inventory
